WEEK 13

Workshop

	Date	Time	Location
Create an Effective CV and Cover Letter	24 March	2-3pm	4-2-06

Intro to Studylink

Applying for Studylink for the first time? Reapplying for next year? Wondering what other support you may be entitled to? Then come along to learn more about Studylink and get some initial support with your applications.

Intro to Moodle

This workshop shows you how to log on to Moodle (UCOL's teaching and learning system) and use the new Open LMS app, as well as how to upload an assignment and to contribute to a forum, and how to download Microsoft Office 365, which is free for you to use while you are studying.

Anxiety: Identification and Action

What is anxiety, how do you spot it and what can you do to combat it? This workshop helps participants to clarify what anxiety is and identify how it might get in the way of a productive and successful student life. This Student Success Wellbeing session provides practical solutions to combat stress and anxiety at any stage of the semester.

APA 7 Referencing

Confused by APA referencing? Come along to this practical workshop and find out about in-text citations and reference lists. Practical examples and tasks will help you to find the information you need to reference your sources. There will also be time for questions.

Time Management

Making effective use of your time can mean the difference between success and struggle as a student. This workshop will offer tips and strategies for managing the time you have available, organisation, and goal setting.

Critical Thinking

What is critical thinking? It is one of the most important components of tertiary study. So many assignment questions ask you to "discuss" a topic, which requires critical thinking. Come and learn how you can improve your grades as we unpack what critical thinking actually means.

Essay Writing Process

This workshop helps students identify the steps involved in the essay writing process, understand how to structure an essay, demonstrate understanding of each part of the structure, and learn techniques including how to analyse and understand essay questions.

Academic Writing

This workshop is designed to help students who are new to the conventions of academic writing in New Zealand. This is for all students including: domestic, international, and domestic-international. The workshop introduces critical analysis in writing, and offers advice and guidance on the use of formal language, paraphrasing and referencing.

Database and Research Skills

This is a practical workshop exploring how to locate information in the databases through the use of keyword and subject searches, and how to limit the number of results to a manageable list. Come along and learn how to access this information from home, the bus, the library, or anywhere you have an internet connection.

Create an Effective CV and Cover Letter

Gain the skills needed to create a stand-out CV and cover letter - the easy way!
